

KAUSHIK V N

Full-Stack Web Developer | Engineering Undergraduate

Bengaluru, Karnataka • github.com/KaushikVN • kaushikvn.dev@gmail.com

EDUCATION

Sai Vidya Institute of Technology, Bengaluru

2024 – 2028 (Expected)

Bachelor of Engineering (B.E.) — 3rd Semester

- Core Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3, Python, C/C++
Backend & Databases:	Node.js, Express.js, MongoDB, MongoDB Atlas, RESTful APIs, JSON
Tools & Platforms:	Git, GitHub, VS Code, Postman, Render, Vercel, npm
Core Concepts:	Full-Stack Development, CRUD Architecture, Responsive Web Design, Asynchronous Programming

PROJECTS

Full-Stack Developer Portfolio & Project Management Platform

JavaScript, Node.js, Express, MongoDB Atlas

- Architected and developed a dynamic full-stack web application featuring an interactive glassmorphism UI and fluid CSS animations.
- Implemented full CRUD operations with Express and Node.js RESTful APIs connected to a cloud-hosted MongoDB Atlas cluster.
- Integrated dynamic DOM rendering to fetch, display, create, and delete developer projects in real time.

Task & Quest Management Web App

HTML5, CSS3, JavaScript (DOM Manipulation)

- Built an interactive task dashboard tracking completion milestones, submission deadlines, and student progress metrics.
- Designed a responsive and accessible user interface using modern flexbox, CSS grid, and responsive media queries.

KEY STRENGTHS & ACTIVITIES

- Problem Solving:** Strong grasp of foundational algorithmic thinking and clean coding principles.
- Continuous Learning:** Actively building real-world full-stack web applications and collaborating on open-source repositories via GitHub.
- Team Collaboration:** Experienced in version control workflows (branching, commits, pull requests) for efficient software development.
